The history of Café Obelix

The Property was build in 1867, back then the premises was a butcher shop. In 1947 the premises were changed to "Santos Kaffebar", open from 6AM until midnight, and was primarily visited by artisans. In 1975 Tonni Overmans took over, at the time the selection was limited to several kind of cofee, bread, beer and wine. In 1995, the premises were changed into a café, and the name of the place became Café Obelix.

The property went throught major renovation in 2000 and 2009 Søren Nissen took over.

Today we serve brunch, an ordinary cup of coffee and bread with cheese from 8AM.

Furthermore ther are a large selection of beers, wines and spirits as well as a dishes. And then there are the night owls who at the weekend can hang out at Obelix until bright morning light – as a good alternative to a noisy, sweaty and crowded discoteque.

March – December

Enjoy food and beverages on our huge sunlit
terasse from 8am until midnight.
